Unfortunately the original article [1] contained a typo in the title. Instead of “Diagnosis of neglected tropical diseases among patients with persistent digestive disorders (diarrhoea and/or abdominal pain  $\geq 14$  days): a multi-country, prospective, non-experimental case-control study” the articles was accidentally called “Diagnosis of neglected tropical diseases among patients with persistent digestive disorders (diarrhoea and/or abdominal pain  $\geq 14$  days): Pierrea multi-country, prospective, non-experimental case-control study”. This has now been updated in the original article and corrected with this erratum.
